ABOUT ME

Hi, I am Menahil Dastgir, BSIT graduate with academic and project experience in Network Monitoring, DevOps, Cloud Computing, and System Administration. Led the development of Sentinel Net, a centralized real-time domain monitoring and alert system designed for endpoint monitoring. Complemented academic knowledge with hands-on exposure to SQL, linux, networking, cybersecurity labs, AWS, DevOps, and shell scripting. Eager to bring strong problem-solving capabilities, technical documentation skills, and a mindset to a professional experience.

TECHNICAL SKILLS

- Programming Languages — Python, Core Java, HTML, SQL, Shell Scripting
- Databases & Core Architecture — MySQL, Logging Concepts
- Cybersecurity & Infrastructure — Real-Time Monitoring system, Access Management
- Tools & IDEs — IntelliJ IDEA, VS code, XAMPP, Git Version Control, MS Office
- Basic Fundamentals — Cloud computing concepts & technologies, Linux Environment, Devops, Networking Fundamentals, CI/CD Foundation, Docker

PROJECTS

Lead FYP – Sentinel Net **Academic Capstone Project**

Centralized Real-Time Endpoint Domain Monitoring & Alert System focused to give organizations centralized visibility and control over their endpoints without the complexity and cost of enterprise solutions.

- Performed hands-on cybersecurity labs through platforms such as TryHackMe.
- Explored AWS EC2 practical experience
- Intuitive Task-Management App (Todo-List): Developed a production-ready application featuring clean programmatic states to efficiently manage user schedules and boost productivity tracking.
- Developed small-scale projects to showcase various Python concepts and functionalities.
- Collaborated with team members to design, implement, and software solutions.
- Skilled in using VS code for efficient coding, debugging, and version control.
- Worked with SQL, PostgreSQL while developing application functionality.
- Practiced Linux-based environments using AWS EC2.
- Worked with basic firewall, DNS, process, user, and system-monitoring concepts.
- Developed familiarity with system logs and command-line tools used in administration.

EDUCATIONAL BACKGROUND

Bachelor of Information Technology **2022 – 2026**
National University of Modern Languages (NUML)

Intermediate in Computer Science (ICS) **2020 – 2022**
Madina College

SCHOLARSHIP

Academic merit financial stipend awarded by the Punjab Benevolent Fund.
